

JCB Telehandler 17m Hire JCB 540-170

£POA

The JCB 17 Metre Telehandler can effectively place bricks, roofing materials and trusses to a maximum height of 17m. Site obstacles often require a machine to place loads at greater distances, which this machine delivers, at a reach of 12.7m. Its tight turning circle and three different steering modes (two wheel, crab & circle steer) with no tail swing, allow it to work productively and safely in confined areas.
